

ALANYA BOAT TOUR
FROM BELEK / SIDE AREAS

Your departure from the hotel will be in the morning, and you will begin the tour of Alanya by boarding a small motor boat, that will take you out to sea, passing alongside the old dockyards and heading towards the three sea grottos, the Phosphorus Cave with its phosphorescent rocks, the Maiden's Cave, where pirates imprisoned their female captives, and the Lovers' Cave.

The Damlataş Cave is next on the agenda; it is particularly well-known for its numerous colourful stalactites and stalagmites and also for its therapeutic powers for asthma sufferers.

The final visit is perhaps the highlight of the tour, as we go up to the highest point on the beautiful Alanya coast to the magnificent old Seljuk fortress set high on the cliff edge, where you will see the ruins of the Cistern and the Byzantine Church. From here, you will have an aerial view of the whole of the lively and bustling Alanya area, including the surrounding bays and sandy beaches.

Lunch will be taken in a typical Turkish Restaurant. Beverages are not included.

Return to the hotel.
